

The 47 Series valves are 3-piece standard and full-port, floating-ball valves. With a working pressure rating of ANSI class #900, threaded or weld end connections and 3-piece design these valves are heavily used in industrial machinery and systems delivering gases or liquids and wallowing in-line maintenance. Habonim's 3-piece valves are equipped with the Total HermetiX Integrity Package offering tight shutoff, zero-emission, double body sealing, fire-safe design, and long service life with high durability. Decades of exceptional performance in demanding applications under the most severe working conditions.
